**OBJECTIVES OF THE STUDY:****A. GENERAL:**

To know the impact of the sexual views of  
titillating film female stars on the sexual  
attitudes of selected students of De La Salle  
University-Aguinaldo.

**B. SPECIFIC:**

To know the family orientation and the  
sexual views of titillating film female stars.

**SCOPE AND COVERAGE:**

The study dealt about the family orientation and  
sexual views of Titillating Film Stars. The  
respondents were selected third year students from  
the College of Arts and Sciences of De La Salle  
University-Aguinaldo.

**METHODOLOGY:**

The researchers used a Likert scale checklist which has a 5-point scale ranging from "Strongly Agree" to "Strongly Disagree." The statistical treatment used was the Percentile.

**MAJOR FINDINGS:**

1) Titillating film female stars had liberated family orientation and their sexual views were vulgar.

2) The sexual views of titillating film female stars had great impact on the sexual attitudes of male students and on the sexual attitudes of older students whose age ranged from 19 to 20 years old. It had much less impact on the sexual attitudes of female students, also on the sexual attitudes of students who were 18 years old, on Roman Catholic and Non-Catholic students and on AB Psychology, AB Communication Arts, and BS Biology students of De La Salle University-Aguinaldo. Almost 45% of the female agreed that they were brought up conservatively, 57.78% of the 18-year-old students also agreed that they were brought up conservatively and 46.15% of the Roman Catholic students agreed that they were also brought up conservatively.

**CONCLUSIONS:**

1) Titillating film female stars had liberated family orientation due to some social factors such as

the social environment, social customs, and home conditions.

2) Titillating film female stars had vulgar sexual views because they had liberated family orientation regarding these views.

**RECOMMENDATIONS:**

1) Parents should communicate with their children regarding issues about sexuality to permit openness and trust.

2) Guidance counselors should develop effective guidance programs regarding the issue of sexuality especially pre-marital sexual relations.

3) A follow-up study should be conducted using other courses to determine if the same conclusions and findings would be arrived at.
