March 2010

ABSTRACT

The RF-Controlled White board eraser consists of a long ranged remote control that triggers the eraser, positioned vertically, to move from left to right and vice versa. It comprises of an eraser frame that is being carried by the motor. This research has simple design that helps in saving time and energy in erasing the white board.

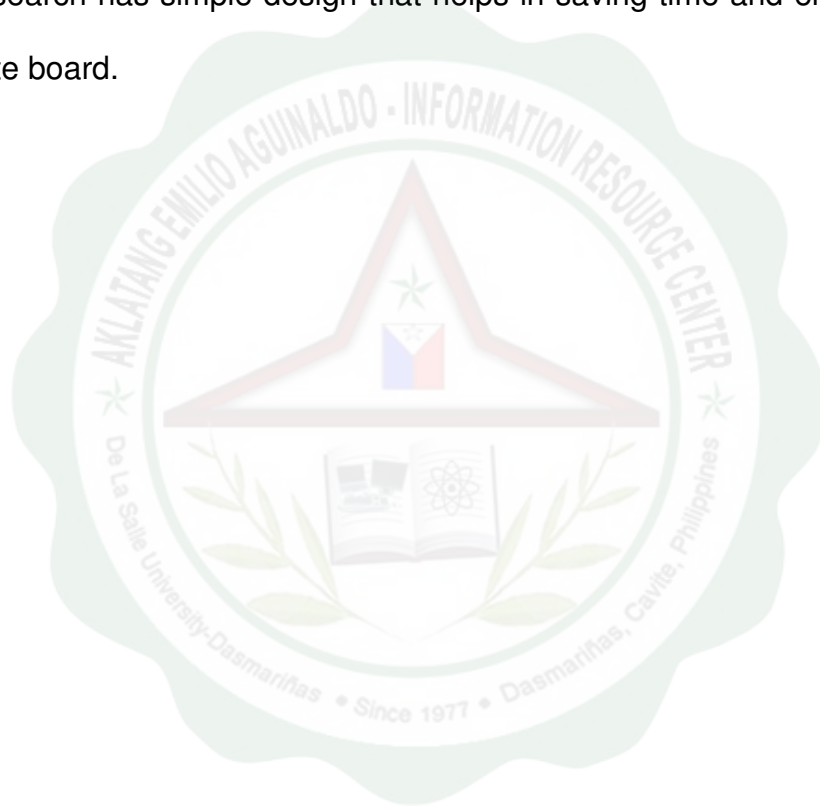

TABLE OF CONTENTS

Title Page	i
Approval Sheet	ii
Acknowledgement	iii
Abstract	v

Chapter I: THE PROBLEM AND ITS BACKGROUND

Introduction	1
Background of the Study	1
Statement of the Problem	3
Significance of the Study	3
Scope and Limitations	4
Conceptual Framework	5

Chapter II: REVIEW OF RELATED LITERATURE

Chapter III: METHODOLOGY

Design	17
Materials and Specifications	17
Implementation	20
Problems Encountered	24

Chapter IV: DISCUSSION OF RESULTS

Testing and Evaluation	25
Remote Control Test	25
Erasing Capability Test	26

Chapter V: CONCLUSIONS AND RECOMMENDATION

Conclusion	28
Recommendations	29
