

Abstract

This study was conducted in the generation of touch screen phones and other gadgets. Therefore, Information Kiosk, also popular as touch screen directory in malls, is a timely study nowadays. The Information Kiosk for Nuvali Evolving is a system that solves the problem of the company in giving directions to their visitors and customers. During the study, the proponents, with the help of the Marketing Department, gathered the most important information about Nuvali Evolving to make the system more reliable for the users.

Upon the implementation of the study, the system appeared to be effective as shown in the results of the survey done. This kind of outcome made the proponents believe that the Information Kiosk is not only new in the field of college studies but is also significant in the field of evolving companies and fast changing pace of technology.
