

ABSTRACT

Today, mobile phones and tablets are becoming more and more popular and are considered to be part of daily life. On the other side, music is also a mode of entertainment and is considered to be part of life because everyday different kinds of music is heard everywhere. The proponents believe that combining music and mobile application in one package can be more entertaining. Aside from entertainment purposes, the users can also learn from the game and test their skills regarding OPM songs and artists. The application was designed for teenagers like the proponents.
