RIZAL ANG BAYANI: A Computer-Assisted Instruction (CAI) on the Life, Works and Writings of Dr. Jose Rizal

A Special Problem
Presented to
the Faculty of the Department of Mathematical Sciences
and Computer Studies
De la Salle University - Dasmariñas
Dasmariñas, Cavite

in Partial Fulfillment
of the Requirements for the Degree
Bachelor of Science in Computer Science

Noli P. Miranda

March 1997

ABSTRACT

NAME OF INSTITUTION:

De La Salle University - Dasmariñas

ADDRESS:

Dasmariñas, Cavite

TITLE:

RIZAL ANG BAYANI: A Computer-

Assisted Instruction (CAI) on the Life,

Works and Writings of Dr. Jose Rizal

AUTHOR/PROPONENT:

Noli P. Miranda

FUNDING SOURCE: Parents

COST: 3,000

DATE STARTED: December 1996

DATE COMPLETED: February 1997

OBJECTIVES OF THE STUDY:

A. GENERAL OBJECTIVE:

To develop a user-interactive, hypertext based, Computer Assisted Instruction (CAI) on Rizal's life, works and writings.

B. SPECIFIC OBJECTIVE:

- 1. To develop a software package that will present to the user a summarized discussion of the life, works and writings of the national hero, Dr. Jose P. Rizai
- 2. To provide the necessary facilities to allow the user to select topics or lesson modules in his desired sequence
- 3. To provide the lessons and exercises needed to make the user understand the subject

SCOPE AND COVERAGE:

/ The project will tackle Rizal's biography, his two famous novels; Noll Me Tangere and El Filibusterismo and a brief description of some of his notable poems and essays. //

METHODOLOGY: Prototyping

OUTPUT OF THE STUDY:

A CAI on Rizal's life, works and writings was developed to demonstrate/Improvements in the design of CAI/ The improvements include: graphics, a randomized set of exercises after each topic, hypertext, on-line help, print option, a student evaluation after each lesson and an index menu. The software was made to run in a Windows-based environment.³/

CONCLUSION:

The project does not intend to replace the role of the teacher as a teaching medium, rather, it will serve as a supplement to the traditional lecture method of teaching.

RECOMMENDATIONS:

The author recommends further enhancement of the graphics and the addition of sound to the finished project to make the lessons more attractive and interesting and the inclusion of a timer for the examinations.
