

**ABSTRACT**

**Name of Institution:** De La Salle University - Dasmariñas

**Address:** Dasmariñas, Cavite

**Title:** An Information System (IS) on Dive Sites of Balabag, Mindoro, Palawan, Negros Occidental and Aldan

**Author:** Ritchie C. Reyes

**Funding Source:** Parents

**Cost:** 60,000

**Date Started:** November 1997

**Date Completed:** March 1998

**OBJECTIVE OF THE STUDY:**

**A. General**

To create an Automated Information System on several dive sites in the Philippines.

**B. Objectives**

1. to create a system that provides diver's guide.
2. to give more information to the divers about several dive sites in the Philippines.

**Scope and Coverage**

The creation of an Information System on particular dive sites in the Philippines which includes maps and statistical data.

**Methodology**

Software development process and research method were used during the development of the software.

**Output of the Study**

An Information System on Philippine Dive Sites was developed to give basic information particularly in the area of Palawan, Batangas, Mindoro, Aklan, and Negros Occidental. It supports diver's information they need.

**Conclusion**

After a careful analysis of the proponent the study was proven to be effective. The information system as considered suitable for Philippine Dive Site presentation.

**Recommendation**

The proponent developed an information which conceive the significance of the dive sites as a good means of tools. However, if there are suggestion for

improvements and additional information the proposal recommends to make the system more complete.
