TABLE OF CONTENTS

1.0 Introduction	
1.1 Background of the study	1
1.2 Statement of the Research Problem	1
1.3 Statement of Objectives	2
1.3.1 General Objectives	3
1.3.2 Specific Objectives	3
1.4 Significance of the Study	3
1.5 Scope and Limitations of the Study	4
1.6 Statement of Assumptions	5
2.0 Review of Related Literature	6
3.0 Requirements Analysis	10
3.1 Interview	10
4.0 Methodology	12
4.1 Design Stage	12
4.1.1 Brainstorming and Storyboarding	14
4.1.2 Flowchart and Paper Design	15
4.1.3 Prototyping and User Testing	16
4.2 Development Stage	16
4.2.1 Media Production	16
4.2.2 Programming and Media Production	17
4.2.3 Programming and Debugging	19
4.2.4 Programming and Final Debugging	20
5.0 Theoretical Framework	21
5.1 Definition of Multimedia	21
5.2 Components of a Multimedia System	21
5.2.1 Audio	22
5.2.2 Text	22
5.2.3 Video	22
5.2.4 Graphics	22
5.3 CD-ROM and Multimedia	22
6.0 Requirements Analysis and Software Specifications	24
6.1 System Overview	24
6.2 System Objectives	25
6.2.1 General Objective	25
6.2.2 Specific Objectives	25
6.3 Scope and Limitations	26
6.4 Assumptions	26
6.5 Requirements and Needs	26
6.5.1 Software Development Stage	26
6.5.2 Operation	28
6.6 Problems that brought about the development of the Project	28
7.0 Design Issues	29
7.1 Design Overview	29
7.2 Design Levels	31
7.3 Design Scheme	31
8.0 Implementation	33
8.1 General Issues	33
8.1.1 Programming Language	33
8.1.2 Design Issues	33
8.2 Program Requirements	33

## 11.0 Conclusions and Recommendations

### 11.1 Conclusions

Gathering information of a particular place can be a tedious task especially if a person has to go over a great number of book. The system, Multimedia on Tourist Spots of the Philippines, therefore is a breakthrough because it gives them substantial information and relevant data, without engaging oneself into an enormous amount of reading. Multimedia on the Tourist Spots of the Philippines is a user –friendly system. Any user can access it even if he is not computer literate. Using a mouse he can gain access to the specific place he wants to know. Through the system, he can save time and will not feel bored while searching.

### 11.2 Recommendations

This system Multimedia on Tourist Spots of the Philippines – 1998 is recommended for all the researchers specially the tourists who want to gather information on the best places in the Philippines.

The proponents recommend that a higher processor be used so as to achieve faster gathering of information.

A print button in the system must also be added to acquire a copy of the information on the best places in the Philippines used in the presentation.
