Lacerna, Mark Russel S.

Date Started: April 2015

Objective of the Study:

A. General

- To develop a “Restaurant Management System” for Chez Deo Ristorante Italiano.

B. Specific

- To implement a restaurant management system that will replace the current system as a solution to the problem.

Scope:

The proponents will develop a network based system that will not only help the restaurant but also its customers.

Methodology:

The proponents used a V-Model Diagram. Testing activities like planning and designing should be done before coding.
