### ABSTRACT

The Jaro Development Corporation-Inventory System (JDC-IS) is an inventory and information system developed for the Jaro Development Corporation located at Trece Martires. The JDC-IS covers the inventory operations and transaction of the said corporation. The study aimed to develop an Inventory System for Jaro Development Corporation using the Visual Basic 5.0 programming language because it is powerful, object-oriented and easy to use. The proposed system was developed specifically to provide better service for customers.

With the proposed system, it would help reduce manual work and the user would not longer suffer from the tedious process of manual inventory system. The automated inventory system provides detailed information on customers and products. The spiral methodology was the system used for the development to eliminate waste of time and system cost. The system helps to facilitate transaction work faster.

TABLE OF CONTENTS

1.0	Introduction .....	1-1
1.1	Background of the study .....	1-1
1.2	Statement of the Research Problem .....	1-2
1.3	Statement of Objectives .....	1-2
1.3.1	General Objectives .....	1-2
1.3.2	Specific Objectives .....	1-3
1.4	Significance of the Study .....	1-3
1.5	Scope and Limitation of the Study .....	1-4
1.6	Methodology of the Study .....	1-4
2.0	Review of Related Literature .....	2-1
3.0	Theoretical Framework .....	3-1
3.1	Statement of Assumptions .....	3-1
3.2	Operational Definitions .....	3-1
3.2.1	Definition of Terms .....	3-1
3.2.2	Definition of Processes .....	3-1
3.3	Theories Used in the Study .....	3-2
4.0	The Existing System .....	4-1
4.1	Description of the System .....	4-1
4.2	Definition of Data Capture .....	4-1
4.3	Inputs .....	4-2
4.4	Processes .....	4-3
4.5	Files .....	4-4
4.6	Outputs .....	4-4
4.7	Dataflow Diagram .....	4-5
4.8	Problem Areas .....	4-6
5.0	The Proposed System .....	5-1
5.1	System Overview .....	5-1
5.2	System Objectives .....	5-1
5.3	Scope .....	5-1
5.4	System Justification .....	5-2
6.0	Design .....	6-1
6.1	Inputs .....	6-1
6.2	Processes .....	6-1
6.3	Files .....	6-7
6.4	Outputs .....	6-8
7.0	Implementation .....	7-1
7.1	Resource Requirements .....	7-1
7.1.1	Software Requirement .....	7-1
7.1.2	Hardware Requirement .....	7-1
7.1.3	Human Resource Requirement .....	7-1
7.2	Installation Plans .....	7-1
7.2.1	System Installation .....	7-1
7.2.2	Training Plans .....	7-2
7.2.3	Conversion Plans .....	7-2
7.2.4	Testing .....	7-3
8.0	Cost Benefit Analysis .....	8-1
8.1	Tangible Benefits .....	8-1
8.2	Intangible Benefits .....	8-1
8.3	Payback Analysis .....	8-5
