**COMPUTER STUDIES DEPARTMENT
AUTOMATED ADVISING SYSTEM**

A Special Problem
Presented to
The Computer Studies Department
College of Science
De La Salle University-Dasmariñas

In Partial Fulfillment
of the Requirements for the Degree
Bachelor of Science in Computer Science

TABLE OF CONTENTS

I. Introduction	
1.1 Background of the Study	1-1
1.2 Statement of the Research Problem	1-1
1.3 Statement of Objectives	1-2
1.3.1 General Objectives	1-2
1.3.2 Specific Objectives	1-2
1.4 Significance of the Study	1-2
1.5 Scope and Limitation of the Study	1-3
1.6 Methodology of the Study	1-4
II. Review of Related Literature	2-1
III. Theoretical Framework	3-1
3.1 Statement of Assumptions	3-1
3.2 Operational Definitions	3-1
3.2.1 Definitions of Terms	3-1
3.2.2 Definition of Process	3-7
3.3 Theories Used in the Study	3-7
IV. Existing System	4-1
4.1 Description of the System	4-1
4.2 Definition of Data Capture	4-1
4.3 Inputs	4-4
4.4 Process	4-4
4.5 Files	4-5
4.6 Output	4-8

4.7. Data Flow Diagram	4-9
4.8. Problem Areas	4-10
V. Proposed System	5-1
5.1. System Overview	5-1
5.2. System Objectives	5-2
5.3. Scope	5-2
5.4. System Justification	5-3
VI. Design	6-1
6.1. Files	6-1
6.2. Process	6-2
6.3. Output	6-12
VII. Implementation	7-1
7.1. Resource Requirements	7-1
7.1.1. Software Requirements	7-1
7.1.2. Hardware Requirements	7-1
7.1.3. Human Resource Requirements	7-2
7.2. Installation Plan	7-2
7.2.1. System Installation	7-2
7.2.2. Training Plan	7-3
7.2.3. Conversion Plan	7-3
7.2.4. Testing	7-3
VIII. Cost Benefit Analysis	8-1
8.1. Intangible Benefits	8-1
8.2. Tangible Benefits	8-1

IX. Conclusion and Recommendation	9-1
9.1 Conclusion	9-1
9.2 Recommendation	9-1

LIST OF APPENDICES

Appendix A.	Certificate for Review Panel
Appendix B.	Thesis Clearance
Appendix C.	Editor
Appendix D.	CRC Representative
Appendix E.	Adviser
Appendix F.	Normalization
Appendix G.	Proposed Data Flow Diagram
Appendix H.	Entity List
Appendix I.	Entity Relationship Diagram
Appendix J.	Data Dictionary
Appendix K.	Program Flow chart
Appendix L.	Curriculum Vitae
Appendix M.	Student Files

Abstract

The Advising System of De La Salle University-Dasmariñas Computer Studies Department is currently using a manual way of advising the students. Although the department is using a computer we cannot say that the system automated, for the reason that they are only using Microsoft Excel is used in organizing the records.

The Process focuses on the students and their respective advisers. All the Students are undergoing to advising before the pre-registration, in order for them to know what subjects are available for the incoming term, and also to be able to limit the maximum units. The problems exist with the irregular students. Some of them are not following the flow of prerequisites and that causes conflict in the later years of their schooling.

The proposed system will focus on tracking of the records of every student and will determine whether they are regular or irregular students. It will organize the files that will result for the advisers to have an easier and accurate way of advising the students, and will eliminate the problems that exist in the manual system, such as: taking subjects without considering the prerequisites, and enrolling with out the limitation of the maximum units.

The proposed system will be beneficial to all the user. The proponents conclude that the advising system will be improved or problems will be lessened by using the proposed system.
