### **Abstract**

The study assessed the fire incidents in Dasmariñas City for the calendar year 2013. This study focused on the causes of the fire incidents that happened in Dasmariñas City and the problems encountered by the fire officers in responding to the fire incidents. The respondents conducted interviews to gather the needed data for this study.

A letter was given for approval to conduct the research regarding the assessment of fire incidents in the City of Dasmariñas. The respondents of this study were the personnel from the Bureau of Fire Protection and the barangay officials in the said City. It gave the perception of the civilians and the one in authority regarding the causes of fire incidents and the problems encountered by the fire officers in responding to the fire incidents in Dasmariñas.

There are programs implemented by the Bureau of Fire Protection- Dasmariñas for the community regarding the basic suppression and prevention of Fire which is called UGNAYANG BARANGAY. This is an open seminar for the Barangay officials and for the community. It discusses how the BFP can respond quickly and how to suppress fire if ever there are no fire trucks. Examples are bucket brigade and instructing the Barangay officials to lead the fire trucks near the incident to avoid delays and for immediate response. It is stated by the BFP that it is the only program that is implemented in the City of Dasmariñas.
