

Abstract

Greatech Philippines Incorporated has been operating since 1999 located at FCIE(First Cavite Industrial Estate) and for only about two years of operation it acquired already many clients and has eventually gained prestige over the CALABARZON area.

This company encountered inaccuracies, losing of files, errors in the computation of salary and tedious way of generating reports because it relies heavily on manual payroll system.

The proposed Payroll System for Greatech Phils. Inc. is an automated payroll system that contains database file of the employees and automatic computation of the employee's salary.
