TABLE OF CONTENTS

Approval Sheet i
Acknowledgement..... ii
Table of Contents..... iii
Abstract..... v

Chapter I: Introduction..... 1-1
1.1 The Problem and Its Background..... 1-1
1.2 Statement of Objectives..... 1-3
 1.2.1 General Objectives..... 1-3
 1.2.2 Specific Objectives..... 1-4
 1.2.3 Project Deliverables..... 1-4
1.3 Significance of the Study..... 1-5
1.4 Scope and Limitations..... 1-6
1.5 Methodology of the Study..... 1-6

Chapter II: Review of Related Literature..... 2-1

Chapter III: The Existing System..... 3-1
3.1 Current System Overview..... 3-1
3.2 Administrative Set-up..... 3-2
3.3 System Coverage..... 3-2
3.4 System Inputs 3-3
3.5 System Outputs 3-4
3.6 Problem and Difficulties of the Current System 3-5

Chapter IV: The Proposed System..... 4-1
4.1 Description..... 4-1
4.2 Scope of the Proposed System..... 4-2
4.3 Objectives..... 4-3
4.4 System Justification..... 4-3
4.5 System Design..... 4-4
4.6 Architectural Design..... 4-10
4.7 Database Design..... 4-12

Chapter V: Summary, Conclusions, Recommendation..... 5-1

List of Appendices

The Existing System

Appendix I: Context Diagram.....A-1
Appendix II: Data Flow Diagram.....A-2
Appendix III: Ishikawa Diagram.....A-4

The Proposed System

Appendix IV: Context Diagram.....A-5
Appendix V: Data Flow Diagram.....A-6
Appendix VI: Entity Relation Diagram.....A-9
Appendix VII: Data Dictionary.....A-10
Appendix VIII: Dialogue Tree.....A-12
Appendix IX: Screen Design.....A-15
Appendix X: Report Forms.....A-19
Appendix XI: Project Schedule.....A-23

Certifications

Appendix XII: Defense Panel’s Certification.....A-24
Appendix XIII: CRC Chair’s Certification.....A-25
Appendix XIV: Editor’s Certification.....A-26
Appendix XV: CRC Representative’s Certification.....A-27
Appendix XVI: Adviser’s Certification.....A-28

Bibliography

ABSTRACT

As a managing company of Alabang Town Center, Alabang Commercial Corporation has been successful in transforming a twin-cinema arcade into a world-class mall. Integral to this success is the emergence of challenges. One of these is the efficient monitoring of tenant transaction, both in the sales volume and amount of sales.

At present, the management's monitoring system can no longer cope with the increasing the increasing business transaction with its tenants.

This system aims to come up with a software that would automate the monitoring of daily sales and the generation of monthly reports. As mentioned above, the gradual expansion has tremendously increased the business dealings of the mall, making it one of the primary problems needing an immediate solution. With this proposed system, the management is expected to cope with the number of transactions, not just for the present but for the future as well. People know that the business today is greatly influenced by globalization and the creation of a world-class market. It is expected that foreign investors would be greatly interested in any profitable market opportunities especially here in the Philippines. Either way an efficient and reliable system would prepare and protect the company.
