

ABSTRACT

Scholarship Program for Educational Assistance and Development (SPREAD) Information System enables the SPREAD Program Coordinator to efficiently coordinate the scholars' data through a computer-based program with capabilities of monitoring, updating, adding, editing, deleting, searching scholars. With an ease in report generation like periodical reports – statistical report of grantees (per scholar/per grant) with detailed attachment of details names and course/year of scholars under each grant; and special reports – Grade Point Average (GPA) Computation and application status report will be efficiently achieved.
