Bachelor of Science in Business Administration

Number of Pages: 112

Date:**Management Aspect:**

/The study reveals the detailed information and advantages on partnership as a form of business organization. / The business will obtain its fund through bank loan and capital equity. The General Manager will be the over-all in charge in administering and running the business, while there will be respective personnel on each department which is according to their functions and responsibilities.

Marketing Aspect:

The study shows that marketing aspect is the lifeblood of virtually every project feasibility study. Obviously, there can be no discussion on profitability of the other aspects of the study if
