ABSTRACT

The contents, lessons, and quizzes in the Online Computer Aided Instruction in Software Engineering are all based on the book: Software Engineering-Theory and Practice 3rd Edition" by Shari Lawrence Pfleeger.

Online Computer Aided Instruction in Software Engineering is an online-based computer aided instruction. It was created and designed for 3rd Year college students taking up BS Information Technology and BS Computer Science at De La Salle University-Dasmariñas. Students can use this website as an alternative for taking up the subject Software Engineering. It consists of different lesson presentations, flash games and simulations, and programming environment that would help the students in developing their thinking skills and enhance their capabilities in programming.
