

De La Salle University - Dasmariñas

ONLINE RECRUITMENT SYSTEM
FOR DOHA ENERGY INTERNATIONAL MANPOWER SERVICES Co.

A Capstone Project
Presented to
The Computer Studies Department
College of Science and Computer Studies
De La Salle University – Dasmariñas

In Partial Fulfillment
of the Requirements for the Degree of
Bachelor of Science in Information Technology

Cuello, Keeshia A.
De Ocampo, Alexandra Mae D.
Nakpil, Jheen Evangelyn C.

March 2013

TABLE OF CONTENTS

ABSTRACT

ACKNOWLEDGEMENT

1.0 INTRODUCTION	9
1.1 Background of the Study	9
1.2 Statement of the Research Problem	11
1.3 Statement of Objectives	12
1.3.1 General Objectives	12
1.3.2 Specific Objectives	12
1.4 Significance of the Study	12
1.5 Scope and Limitations	14
2.0 REVIEW OF RELATED LITERATURE	19
3.0 METHODOLOGY	29
3.1 Research Design	29
3.2 Operational Definitions	29
3.2.1 Definition of Terms	29

3.2.2 Definition of Processes	32
3.3 Conceptual Model	34
3.4 Conceptual Operation	38
4.0 PRESENTATION OF RESULTS/FINDINGS	40
4.1 Introduction	40
4.2 Data Gathering Basis	43
5.0 DISCUSSION/CONCLUSIONS OF RESULTS/FINDINGS	46
5.1 Result Analysis	46
5.2 Conclusion	47
5.3 Recommendation	50

APPENDICES

Appendix A: Context Diagram of the Existing System

Appendix B: Data Flow Diagram of the Existing System

Appendix C: Child Diagram of the Existing System

Appendix D: Context Diagram of the Proposed System

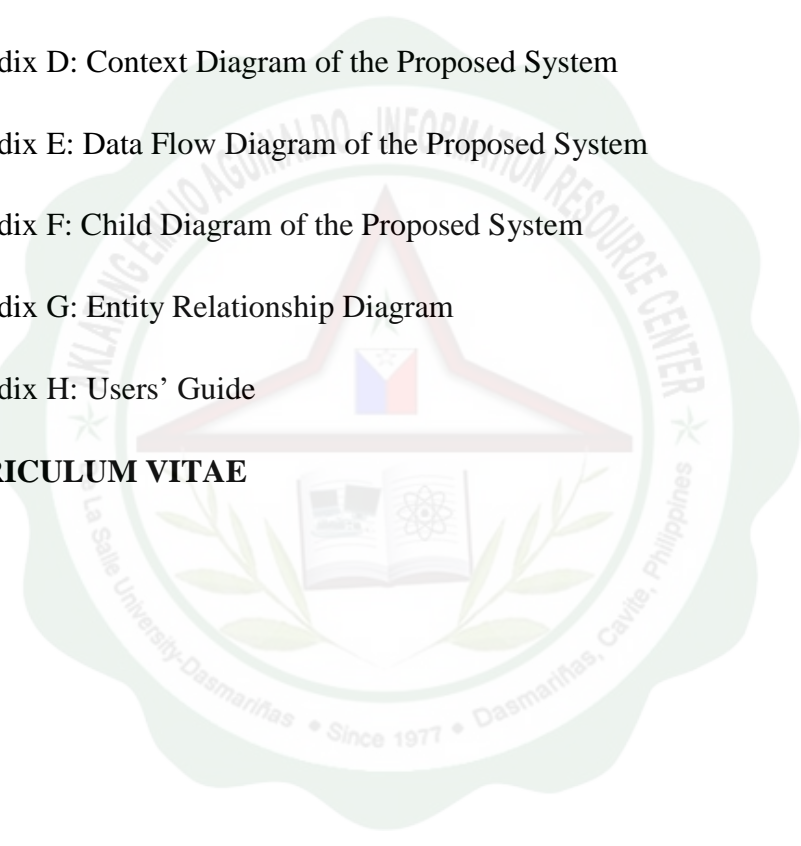

Appendix E: Data Flow Diagram of the Proposed System

Appendix F: Child Diagram of the Proposed System

Appendix G: Entity Relationship Diagram

Appendix H: Users' Guide

CURRICULUM VITAE

ABSTRACT

The Internet proves to be a great asset in today's business transactions as it plays a big role as the bridge of communication. The proponents studied carefully the processes of Doha Energy International Manpower Services Co., a recruitment agency, in order to find out its weak points and develop possible answers to overcome those hindrances. Coming from manual transactions, the online recruitment system aims to harness the power of technology to develop better solutions in handling file management, application, hiring, and deployment – by making them automated.

The website also serves as a medium to advertise job openings with lesser cost compared to the traditional job postings in newspapers. Other features added such as advanced job search and job matching were patterned from leading job posting sites, which proved to be user-friendly. These capabilities were made to make use of time, effort, and resources efficiently and effectively.

The implementation of the system requires continuous subscription to a webhost for it to remain viewable and active, with the company, the clients and the applicants would be having great advantages through the use of its features.
