Nashmier C. Nandang

Degree: Bachelor of Science in Criminology

Date Started: September 2016

Date Completed: May 2017

The study determined the level of awareness of the Criminology students regarding first aid.

The research used self-made survey questionnaire in order to acquire all the data and information needed for this study. Questions were prepared to respond for answers to the problems enumerated. A self- made questionnaire was administered to the DLSU-

D criminology students from different year levels. Convenience sampling technique was applied.

The study revealed that DLSU-D criminology students are aware regarding first aid. The overall computed mean is 4.09 which is interpreted as “AWARE”. This implies that the De La Salle University – Dasmariñas Criminology students are aware regarding first aid.
