## **ABSTRACT**

Building a budget is the act of combining your income and expenses so that you can decide how much money you are going to spend on one item, how much on another, and so on-before you actually spend the money. Creating a budget doesn't mean that all of your problems are going to be solved, but it is an important step in determining your financial health and creating financial stability. The application is Pinoy Budget Organizer that calculates your expenses daily, weekly, monthly, and yearly. It suggests on how much money you should allot for example, food, rent, water, electricity, etc. It has a login account for security purposes. The application lets the user sign up whether he or she is single or married because the budget organizer depends on the status of the user. Every expense has its different percentage. The application helps the user to make an easy budget so as not have a headache on how much he or she will spend. Likewise, the Pinoy Budget Organizer will tell how much money the user should spend to have high savings.
