- Appendix G: Sample Reports

## ABSTRACT

The Online Billing and Reservation System for El Cielito Hotels - Makati was developed to remove inaccuracy due to the existing manual system. The reservation officer and the administrator can now enjoy having an online system. They can easily maintain and improve their system by having a database that can be easily updated.

The Online Billing and Reservation System for Private E Resort will provide more efficient, less time consuming transactions that will benefit not only the clients but the reservation officer and others as well.
