**ABSTRACT**

“Computer Aided Instruction in Introduction to Computer and Visual Basic Express” as created to assist the 4<sup>th</sup> year students of Christian Values School in a new way of understanding their Computer subject. It provides a change of pace in traditional learning by using an e-learning system. The system provides lesson, quizzes and games that are in accordance with the curriculum of Christian Values School. The system administrator provides an account to the students to give access to the system. The students are able to view their lessons and watch educational videos to have a better understanding of the topics and to catch the attention of the students. The teacher is the one who is responsible for the evaluation of the students and for the management of their accounts and quizzes in the system.
