Curriculum vitae

Abstract

Photocai is a computer aided instruction geared towards assisting 2nd year students of JCKLFS in learning Adobe Photoshop. It provides a change in traditional /classroom setting through the use of the web and a learning system. The system provides lesson and activities included in the student's curriculum established by JCKLFS. The student is able to read lessons, view video presentations and listen to audio recording. The system evaluates the student's performance through quizzes and games. The teacher is able to view the evaluation of the students through the system as well.
