ABSTRACT

The Online Reservation with Billing System was proposed in replacement of the Manual Billing and Reservation System for Nurture Spa Village Tagaytay, for the company to have a systematized operation and transaction, in addition to a trouble-free work for the officers-in-charge. The system was built on the World-Wide Web Technologies, and was operated entirely online, providing clients with a friendly, simple-to-use, yet powerful tool for managing and optimizing throughput.

In addition, the proponents developed a proficient and useful system for Nurture Spa Village Tagaytay. There was a reservation of packages, services and products and billing for every transaction. The system was also provided an everyday inventory, and billing and invoices for the client or as requested by the client. Billing comprised the generation of invoices, along with the summary of computation for operations such as overtime, stripping, plug-in, and blast freezing.

Table of Contents

TitlePage	I
Abstract.....	II
Acknowledgement.....	III
Table of Contents	IV
CHAPTER 1 – Introduction	1
Background of the Study	1
Statement of the Research Problem	4
Statement of Objectives	6
Significance of the Study	7
Scope and Limitations of the Study	8
Methodology	9
CHAPTER 2 - Review of Related Literature.....	13
Local	13
Foreign	17
CHAPTER 3 - Theoretical Framework.....	21
Statements of Assumptions.....	21
Operational Definitions.....	21
Theories Used in the Study	24
CHAPTER 4 - The Existing System.....	28
Description of the System.....	26
Inputs.....	29
Processes	29

Files.....	35
Outputs.....	38
Data Flow Diagram.....	39
Problem Areas.....	39
Outputs.....	40
CHAPTER 5 - The Proposed System.....	42
System Overview.....	42
System Objectives.....	43
Scope.....	44
System Justification.....	44
CHAPTER 6 – Design.....	46
Inputs.....	46
Processes.....	47
Files.....	50
Outputs.....	55
CHAPTER 7 – Implementation.....	58
Resource Requirements.....	58
Installation Plans.....	60
CHAPTER 8 – Conclusions and Recommendations.....	63
Conclusions.....	63
Recommendations.....	63

APPENDICES	64
Appendix A: Data Flow Diagrams	V
Appendix B: Entity Relationship Diagram	VI
Appendix C: Normalization.....	VII
Appendix D: Sample Forms.....	VIII
Appendix E: Screen Design.....	IX
